Experience

Associate Application Developer

Icicle Technologies, Bangalore, India

July 2016 – Current

Icicle Technologies is a IT consulting company – providing solutions for web and mobile. I'm working as a part of highly talented and self-driven team on technologies such as Ruby on Rails, React, React Native and UI/UX design. I am also exploring Elixir and Phoenix on recent projects.

Web Application Developer and Design Executive

Green Edge Technologies Pvt. Ltd., Surat, India

February 2015 – February 2016

I was the lead application developer and designer working with a team of 5 for developing an internal web application on Ruby (Padrino framework). The application has been an immense success for the organization resulting in reduction of lot of man hours. I was completely in charge of 3 out of 7 sub modules. It is used for employee management, internal employee reports, employee payments/expenses management, product database management and project/client management.

Projects

Project ORION – Ruby on Rails - <http://adhiya.net>

Manilal Stores (Adhiya), Surat, India

January 2016 – September 2016

Project ORION is an internal order management and order tracking system for Manilal Stores – Leading uniform manufacturers. Order can be placed with custom measurements and application has different levels of authorization to synchronize shop outlets, inventory, manufacturing facility and delivery network which was very difficult earlier.

Ezzy Classes E-Learning Platform - <https://ezzytoremember.com>

Ezzy To Remember institute, Surat, India

July 2015 – Current

I have developed an e-learning and e-commerce website on WordPress platform for Ezzy To Remember coaching institute, Surat. I manage website content, orders, lessons, student profiles & activities and website updates.
